

Premier Partner Program

Nevis Networks' channel program provides highly effective sales and marketing support for select channel partners around the world. This program is built with the clear understanding that productive, long-term channel relationships are critical to our ongoing success. Channel partners qualifying to participate in this program will benefit from our innovative technology, comprehensive suite of product solutions, marketing programs, sales tools, training, support and direct help in growing their businesses. Partners are expected to have a deep technical expertise in enterprise networking and security solutions, as well as a significant enterprise customer base.

Active, equitable management of territory coverage and cross-region channel interactions is a cornerstone of our overall program, and a clear demonstration of our long-term commitment to our partners and channel sales strategy.

The highest level of our channel program is our Premier Partnership category. Upon executing a direct reseller agreement, and completing the partner training and certification process, these partners are entitled to order products and services directly from Nevis Networks in order to resell them to their customers as part of their overall solution in the assigned territory. The following summary provides a high-level overview of some of the key Premier Solution Partner program benefits and requirements. Potential partners interested in learning more about the program should send an email to sales@nevisnetworks.com in order to be put in contact with a local Nevis Regional Manager.

Key Premier Partner Benefits

Unique Solution with Compelling Value

Immediately generates interest of new and existing customers, and is compelling in the high growth LAN security market.

Liberal Partner Margin

Premier Partners receive a discount off of MSRP for Nevis products and services. Furthermore, those partners becoming authorized Nevis support centers will receive an additional discount on initial support service sales.

Increases Value-Added Service Revenue

Securing the LAN is one of the top priorities for enterprises globally. Nevis provides a multi-function approach which resonates with customers and cost-effectively addresses a high priority problem.

Shortest-Time-To-Purchase Order

Hook customers quickly and establish credibility with an evaluation service which verifies endpoint integrity and identifies vulnerabilities in their network.

Sell Across Vertical Markets

Hundreds of customers across many vertical markets whose are now addressing LAN security issues in an environment of open networks and a dissolving network perimeter. Nevis also offers a lead sharing plan for Premier Partners.

Premier Partner Programs and Tools

Jump-start kit, reseller guide, sales collateral, wall plaque, joint marketing activities, competitive positioning documents, pricing tools whitepapers, graphics, regional seminars, mailers, protected partner extranet to our knowledgebase and web site, priority phone queuing and other tools.

Key Premier Partner Requirements
